

To Whomsoever It May Concern

EMARAT is writing in response to a request for feedback on the performance of Catalyst unit supplied by M/s Comet Consulting Group. After installing the units on our fleet as part of the pilot project and evaluation, we are pleased to report that the product has met our expectations.

Catalyst units were installed on two of our vehicles 2008 & 2010 model tractor units which runs an average 8,000 to 10,000 kms monthly and following results were achieved -

- Emission reduction (based on Turbo K value) : 48 to 65 %
- Fuel consumption reduction : 3 to 10%

Furthermore, we would like to commend M/s Comet Consulting Group for their excellent customer service and support throughout our pilot project process. Their prompt responses and professional approach have been greatly appreciated.
